Frameworks & Libraries: React, Tailwind CSS, Framer Motion, Radix UI

State Management: Zustand

Form & Validation: React Hook Form, Zod

Auth: Clerk, Supabase Auth

Others: Git/GitHub, Vercel, Firebase, UploadThing, Notistack

## PROJECTS

Homy – Real Estate Marketplace Platform Frontend Dev | React + Tailwind (in progress)

Full-stack ready platform for property listing, sales, and agent subscriptions in Nigeria.

Integrated features: agent verification, property filters, chat system (Socket.io), Google Maps, subscription payments, and listing promotion.

BuildWise – Construction Services Directory Solo Project

Informational business website for showcasing construction services.

Fully responsive UI built with TailwindCSS and animated with Framer Motion.

Bookium – Book Showcase Website Solo Project

Built an interactive book landing page.

Integrated SEO-friendly routes and optimized image handling.

Le Tailore – Fashion Storefront Solo Project

Clean UI/UX for a modern fashion brand with separate pages for male/female wear.

Used Next.js, Tailwind, and Lucide React for dynamic experience.

## VISION & INTERESTS

Building long-term passive-income platforms like Homy

Passionate about UI polish, UX accessibility, and scalable architecture

Long-term vision: become a founder, scale a tech company like Zuckerberg or Elon

Personal brand in progress: portfolio, video content, storytelling

## ACHIEVEMENTS

Built over 15+ frontend projects using React and Tailwind

Self-taught with consistent grind and improvement since age 16

Building toward 40+ project goal for deep portfolio and real-world dev experience

## EXPERIENCE

Freelance Front-End Developer Remote | 2024 – Present

Built 10+ frontend projects including portfolio sites, product showcases, and dashboards

Transformed basic UI ideas into polished, responsive web interfaces
